PURPLE REIGN

Purple can be viewed as an indicator that you are eating foods with a powerful array of health benefits. Fruits and vegetables of this color are rich in anthocyanins, which give foods with their unique color and may benefit brain health, help lower inflammation, and fight cancer and heart disease. In addition to anthocyanins, purple produce offers several other key vitamins and nutrients. Purple powerhouses you should add to your diet include blackberries, boysenberries, cherries, and purple cabbages.

DISCOVER: PLUM

Look out for plum perfection this month. In season late April through October, plums are a juicy snack brimming with vitamins A and C, calcium, and potassium.

CONCORD GRAPES: Bursting with manganese, vitamin K, & anthocyanins

CHALLENGE OF THE MONTH: CABBAGE COLOR KIT

Transform white fabrics into natural purple and blue tones straight from the cabbage patch! After gathering the materials, follow the directions below.

DIRECTIONS: Bring water to a boil with the chopped cabbage.* Reduce heat and simmer for 20 minutes. Strain and transfer only liquid back to pot. Add damp fabric and simmer 10-20 minutes. Rinse, or leave in bath overnight and rinse with hot water until water runs clear. Dry. Heat set by ironing for 5 minutes.

MATERIALS:

White clothes to dye
1 large pot
1 strainer
2 cups of chopped red cabbage
5 cups of water

Choose one or the other:

2 tablespoons of apple cider vinegar for purple
